

Name: Sample

Learning Skills Grades

Responsibility	E
Organization	G
Independent Work	S
Collaboration	N
Initiative	E
Self-Regulation	G

Comment:

Sample independently takes responsibility for, and manages his own behaviour. He identifies, gathers, evaluates and uses information, technology, and resources to complete tasks and follows instructions with limited consistency. He works with others to resolve conflicts and builds consensus to achieve goals with intensive support. He rarely attempts to share information, resources, and expertise, and does not promote critical thinking to solve problems and make decisions. Sample approaches new tasks with a positive attitude on a consistent basis. He always recognizes and advocates appropriately for the rights of himself and others. He identifies learning opportunities, uses strategies to meet personal needs and responds to challenges to achieve goals.

Next Steps:

Sample should record all jobs in his agenda and make sure his agenda is signed by a teacher and parent each day.
